

Single Night Count of People Experiencing Homelessness

2023 Minnesota Homeless Study Counts Data Tables

CENTRAL MINNESOTA

Every three yearsⁱ, Wilder Research conducts a one-day statewide study to better understand the prevalence of homelessness in Minnesota, as well as the circumstances of those experiencing homelessness. The most recent study took place on October 26, 2023, and included two components that captured information on that date:

- Face-to-face interviews with people throughout the state who meet the [federal definition of homelessness](#)
- A count of people experiencing homelessness

People staying in shelter or not in a formal shelter, and meeting the federal definition of homelessness are included in the count:

- **In shelter:** People staying in all known emergency or domestic violence shelters, transitional housing sites, and hotels/motels for which they receive a voucher.
- **Not in a formal shelter:** People staying outside, on transit, or temporarily doubled up, and identified through interviews in outreach locations such as encampments and other drop-in sites.

This report does *not* contain estimates of the uncounted or hidden homeless population, the number of people in detox, or data from participating reservations.

CONTINUUM OF CARE REGIONS

Minnesota has 11 Continuum of Care (CoC)ⁱⁱ regions. Counts data for all regions and select geographies are available at mnhomeless.org.

ALL PEOPLE EXPERIENCING HOMELESSNESS

1. People experiencing homelessness

	IN SHELTER	NOT IN A FORMAL SHELTER	TOTAL
Total number of people experiencing homelessness	455	201	656

2. People experiencing homelessness, by age and gender

ADULTS AND UNACCOMPANIED MINORS...			IN SHELTER		NOT IN A FORMAL SHELTER
Age	Age group total	Gender ^a	Emergency and domestic violence shelters	Transitional housing	
Unaccompanied minors age <18	12	Female	1	2	5
		Male	1	0	2
		Trans, non-binary, or other gender identity	1	0	0
Young adults age 18-21	62	Female	4	22	9
		Male	5	10	9
		Trans, non-binary, or other gender identity	0	1	2
Young adults age 22-24	34	Female	5	9	5
		Male	3	1	9
		Trans, non-binary, or other gender identity	2	0	0
Adults age 25-54	299	Female	63	46	43
		Male	63	24	49
		Trans, non-binary, or other gender identity	3	0	8
Older adults age 55+	82	Female	12	4	9
		Male	23	20	13
		Trans, non-binary, or other gender identity	0	0	1
Total number of adults and unaccompanied minors			186	139	164
Total number of children under age 18 in families			78	52	37

^a 2023 Wilder counts reporting includes a “trans, non-binary, or other gender identity” gender category. The numbers in this category may be an undercount. While interviewers and shelter staff are instructed to ask about gender identity, some may have assumed or guessed, while some people with non-binary identities may have felt uncomfortable or unsafe reporting their identity.

3. People experiencing homelessness, by race/ethnicity

	IN SHELTER	NOT IN A FORMAL SHELTER ^a	TOTAL
American Indian	19	14	33
Asian or Pacific Islander	4	1	5
Black, African American, or African	85	17	102
Hispanic or Latina/e/o	31	0	31
Middle Eastern or North African	6	1	7
White	233	99	332
Multi-racial	54	15	69
Unknown race or ethnicity	23	0	23

Note. For this report, race data is reported as a single response option. Future reports, using interview data, will include additional data for people who identify with more than one racial group.

^a The race/ethnicity of those not in shelter is available for interview respondents only. Their partners and/or children are not represented in these data.

4. People experiencing homelessness, by family type

	IN SHELTER	NOT IN A FORMAL SHELTER	TOTAL
Parents in families	71	16	87
Individuals	254	148	402
Children under age 18 in families	130	37	167

Note. "Families" includes parents who have children under 18 years old living with them. "Parents" includes heads of household and their partners. "Individuals" includes singles and couples who do not have children (under age 18) accompanying them.

PEOPLE IN FAMILIES EXPERIENCING HOMELESSNESS

5. People in families experiencing homelessness, by age of parents

	IN SHELTER	NOT IN A FORMAL SHELTER	TOTAL
Unaccompanied minors age <18	1	0	1
Young adults age 18-21	2	0	2
Young adults age 22-24	6	2	8
Adults age 25-54	61	13	74
Older adults age 55+	1	1	2
Total parents in families	71	16	87
Total children under age 18 in families	130	37	167
Total people in families	201	53	254

Note. "Families" includes parents who have children under 18 years old living with them. "Parents" includes heads of household and their partners.

INDIVIDUALS EXPERIENCING HOMELESSNESS

6. Individuals experiencing homelessness, by age

	IN SHELTER	NOT IN FORMAL SHELTER	TOTAL
Unaccompanied minors age <18	4	7	11
Young adults age 18-21	40	20	60
Young adults age 22-24	14	12	26
Adults age 25-54	138	87	225
Older adults age 55+	58	22	80
Total individuals	254	148	402

Note. "Individuals" includes singles and couples who do not have children under age 18 accompanying them.

Explanation of 2023 data

The findings above are based on the 2023 Minnesota Homeless Study counts data. Counts data include: 1) a count of all shelter guests either identified through HMIS data (for shelters reporting to HMIS) or from Wilder-collected data (for shelters not reporting to HMIS), and 2) a count of all interviews conducted with people not in a formal shelter. Because a single night count and interviews can never fully identify all people experiencing homelessness who are not using shelters, the numbers represented in this fact sheet should be considered a minimum count. Please visit mnhomeless.org for detailed regional reports with counts data by shelter types, age, gender, race, and family status, as well as the 2023 Minnesota Homeless Study Counts Fact Sheet.

What's next?

Beginning in May 2024, Wilder will report findings from thousands of face-to-face interviews conducted throughout Minnesota, plus:

- Data tables for each interview question, for every region of the state.
- Findings from the Reservation Homeless Study.
- Specialized briefings on smaller sub-groups such as homeless youth, Veterans, older adults, families, and long-term homeless populations.

ⁱ The study was postponed for two years due to the COVID-19 pandemic; therefore, it has been 5 years since the previous study in 2018.

ⁱⁱ A Continuum of Care (CoC) is a community strategic plan to coordinate, organize and deliver housing and services and promote community-wide commitment to reduce the incidences of homelessness. CoCs also apply for funding to address homelessness from the U.S. Department of Housing and Urban Development (HUD). (Minnesota's Homeless Management Information System, n.d.).
